CONDENSED NARRATIVE/STATEMENT OF PROBABLE CAUSE

On 9-2-02, at approximately 0335 hrs, CenCom dispatched a possible trespass, in progress, at 17th and Pennsylvania. CenCom advised that the Merchant Security officer was standing by for contact at 15th and Pennsylvania. While I was talking to the security officer, an older model pick up drove southbound from the 1700 block of Pennsylvania. The security officer said that no one was suppose to be in the compound and that Sesko had been evicted. He added that he saw the pick up inside the locked compound and that he also saw a male subject walking around inside. I stopped the truck that was on Pennsylvania, so I could investigate the incident. I made contact with the driver, William Sesko. Sesko was aggitated as he told me that he owned the property and was allowed to be there. He had the key to the locked gate. He continued to tell me that he was not trespassed from the locked storage area at 17th and Pennsylvania. Sesko left the area.

I went to 17th and Pennsylvania and saw that the gate had padlocks on it. I also went to 17th and Thompson and saw that the gate was locked and that KCSO had posted a notice that the tenant was evicted on 8-12-02. As I looked through the gate, it appeared as though Sesko may have gained access to his lot, by going through the gate on Pennsylvania.

Disposition: Forward to the Building department and City Attorney for information.

I certify under penalty of perjury under the laws of the State of Washington that the foregoing is true and correct.
